

SANKARAN S M *Software Developer*

📍 Namakkal ✉ sankaranmohan2001@gmail.com ☎ 9361624279

PROFESSIONAL SUMMARY

Software Developer with 3+ years of experience in PHP Laravel backend development, REST API design, multi-tenant SaaS applications, and database optimization. Skilled in building scalable web applications, integrating payment gateways, implementing secure authentication systems, and delivering enterprise-grade solutions across HRMS, CRM, IoT, and ERP platforms.

PROFESSIONAL EXPERIENCE

CARIFER Technologies | Software Developer Mar 2023 – Present | Erode

- ▶ Architected and delivered backend services for 6+ enterprise applications using PHP Laravel, improving API response performance and supporting scalable web and mobile platforms.
- ▶ Implemented 20+ secure RESTful APIs using JWT/session authentication, CRUD workflows, and payment gateway integrations, supporting scalable web and mobile applications across multiple business domains..
- ▶ Led a team of 5 developers through code reviews, coding standards enforcement, and architecture discussions, reducing deployment defects and improving release quality.
- ▶ Mentored 5+ junior developers on Laravel architecture, Git workflows, API design principles, and coding standards, reducing onboarding time and improving team productivity across multiple projects.

KEY PROJECTS

ERP SaaS Platform – Developed multi-tenant ERP modules for HRMS, CRM, payroll, inventory, billing, and attendance management with RBAC, REST APIs, reporting dashboards, and scalable database architecture.

Smart Meter (IoT) - Designed backend services and monitoring dashboards for IoT smart meters, processing real-time energy consumption data and automated billing workflows.

GIS Property Data Management - Built backend modules, database workflows, for GIS property management systems supporting location-based datasets and mapping operations.

Service Connect & RTA - Designed and integrated REST APIs and payment gateway services supporting digital transport and customer service workflows.

Notary Management System - Improved secure role-based workflows, document management systems, and API integrations for notary registration and tracking processes.

SKILLS

Programming Languages | Problem Solving

Backend: PHP, Laravel, CodeIgniter, Livewire, REST APIs, JWT Authentication

Database: MySQL, SQL Optimization, Database Design, Query Optimization

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, jQuery, Ajax

DevOps & Tools: Docker, Jenkins, Git, GitHub, Postman, CI/CD, Figma

Architecture: Multi-Tenant SaaS, RBAC, API Security, Payment Integration

COURSES & EDUCATION

B.E - Computer Science And Engineering, 2019 – 2023
Velalar College of Engineering And Technology, CGPA - 8.5

Principles Of Management, NPTEL (IIT Certified) 2023 – 2023
